Profile:

I'm hard-working, open for new opportunities and eager to learn new. I'm open for various challenging projects. I like solving problems and achieving new experience. I am interested in developing new projects from scratch and updating existing ones in Javascript and React.js with css. I have developed several learning projects:

- simple and engineering calculator,
- mini project weather show and exchange rates (privatbank api),
- front end of tickets ordering service,
- front end of online store cart with Modal window,
- project for messaging front-end with the back-end (using openserver)

Work Experience:

VD MAIS, from August 2021

Head of Region Branch. Company business development.

Two managers in my subordination

VD MAIS, 2012-2021

Region develop manager. Increase in the number of customers and sales of company

Diamech-Ukraine, 2008-2012

Lead engineer. Technical negotiations with customers. Installation and configuration of equipment for balancing and vibration measurement

Torpal Co., 2005-2008

Service engineer. Configuration automatically barriers and gates. Development of automatic for trade equipment (C++, chips Atmel)

Education:
